

Antigen Antibody Interactions

A detailed 3D illustration of an antigen-antibody interaction. On the left, a large, textured, brownish spherical antigen is shown. To its right, several Y-shaped antibodies are depicted in a light blue color. In the foreground, a large, green, spherical virus-like particle with numerous protruding spikes is visible. The background is dark with faint, glowing blue and green particles, suggesting a microscopic or molecular environment.

23th-24th

April 2018

Location: Online

Bringing together Research scientists, immunologists and pharmaceutical professionals & People involved in basic and translational research related to laboratory diagnostics, including immune-haematology.
